Quarterly Budget

Fictional example / US dollars

One quarter, three monthly columns. Not a comparison with a previous quarter.

Category	Month 1	Month 2	Month 3	Quarter total
INCOME				
Client work	6,500	5,200	8,000	19,700
Other income	0	0	0	0
Total income	**6,500**	**5,200**	**8,000**	**19,700**
EXPENSES				
Regular expenses	4,900	4,900	4,900	14,700
One-time expenses	0	500	1,300	1,800
Total expenses	**4,900**	**5,400**	**6,200**	**16,500**
Net (income minus expenses)	**1,600**	**-200**	**1,800**	**3,200**

Month 2 expenses exceed income by $200, even though the quarter totals +$3,200.

This shows monthly net amounts, not an account balance or guaranteed cash available.
